Vienna, March 6.

THE Obsequies for the Repose of the Soul of the late Empress Mother have been performed for these three Days past with great Solemnity, a pompous Mausoleum having been erected for that Ceremony in the Church of the Court of the bare-footed Austin Friars. On Sunday last, Cardinal Spinola, the Pope's Nuncio, officiated at the Vigils, at which the Emperor and the whole Imperial Family assisted. On Monday the 4th Instant a Funeral Sermon was preached by a Jesuit, Preacher in Ordinary of the Court, after which the said Nuncio said Mass; and in the Evening being the second Vigils, officiated Cardinal Count Althan, Bishop of Vercia, who said Mass the following Day in the Morning; the third Vigils were performed by Count Colloita Prince Bishop of this City, who said Mass this Morning, and the Ceremony was this Evening concluded with another Mass, sung by Count Colloita Bishop of Neitra. Their Imperial Majesties, and a great Number of the Nobility, were present at this Funeral Solemnity, which was accompanied with the most exquisite Musick, the Bells of all the Churches and Convents in this City and the adjoining Suburbs ringing continually during these three Days. Yesterday Ibrahim Bassaw, Ambassadour of the Ottoman Porte, had Audience of Prince Eugene, according as he had desired, which lasted a good while. It is believed it relates to his returning home, the Ambassadour being inclined to travel by Belgrade rather by Land than by Water. The Affairs of Religion take up great Part of the Deliberations of the Imperial Ministers, who cannot give general Assurances to the Ministers of the Protestant Powers, that the Emperor will see Justice done to the Protestants alike with the Roman Catholics, desiring only that things may not be carried to Extremities by further Reprisals and Writings.

Paris, March 20. There has been a great Throng for these three Days past at the Bank, great Numbers of People carrying thither their Species, particularly Gold. Possibly being the chief Market for supplying this City with Cattle, it has been resolved to establish a Bank there, depending on the Royal Bank here, which is to furnish every Week a sufficient Quantity of Bills and Species for the Convenience of that Trade, and in case the Butchers of this City shall fall short of ready Cash, they may find Credit at the said Bank till the next Market Day, at the Interest of one Denier per Livre. And in order the better to facilitate the Importation of Cattle, the King by an Arrêt dated the 13th Instant, has taken off two thirds of all the Duties usually paid hitherto; on the other Hand, in order to prevent the Exportation of Corn, the usual Duties are raised by the same Arrêt to the Treble of what they were before. On the 18th Instant, a Beginning was made at the Hotel de Mazarin, of resuming the Policies given by the India Company for delivering out Actions at certain Terms, which they have continued to do this Day. A private Person who went thither on that Account lost his Pocket-Book, in which were 237 Subscriptions, and 9 Policies for 159 Actions, which Loss is counted to amount to upwards of 1500000 Livres. If the current Report may be credited, the Abbot du Bois will be made a Cardinal, and go to reside at Rome, to manage the Affairs of France there in the Room of the late Cardinal de la Tremoille: It is said, that the Marquess de Brancas, Lieutenant-General of the King's Forces, and the Marquess de Torcy, stand fairest for succeeding him in the Administration of the publick Affairs. M. Hop, the Dutch Ambassadour here, having lately complimented the Abbot du Bois on his be-

ing nominated Archbishop of Cambray, the said Abbot among other obliging Expressions, assured the Ambassadour, that he would embrace all the Opportunities this new Dignity shall furnish him with of shewing his Esteem for the States General, in as much as great Part of the Places garbled by them on the Frontiers of the Conquests of France in the Netherlands lie under the Ecclesiastical Jurisdiction of the said Archbishoprick.

They potently strengthen and corroborate the parts of Generation, effectually promote Conception, and render both Sexes prolific in a wonderful Manner, as Thousands have experienced.
